

Artificial Intelligence and Machine Learning

Learning and Development

Course Overview

Artificial Intelligence and Machine Learning: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Artificial Intelligence and Machine Learning
- Apply practical tools and techniques for Artificial Intelligence and Machine Learning in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Artificial Intelligence and Machine Learning in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

HR managers, HR business partners, talent and learning specialists, and line managers with significant people responsibilities.

Course Outline

1. Foundations of Artificial Intelligence and Machine Learning: principles, terminology and context
2. The business case: why Artificial Intelligence and Machine Learning matters to performance
3. Core tools, frameworks and methods
4. Applying the tools: guided case study and exercises
5. Common pitfalls and how experienced practitioners avoid them
6. Working with stakeholders: communication and influence
7. Measuring results and continuous improvement
8. Personal action planning and course review
