Cathodic Protection System in Oil & Gas Exploration Industry Survey, Analysis and Design

Corrosion and Metallurgy

Course Overview

Cathodic Protection System in Oil & Gas Exploration Industry Survey, Analysis and Design: a 5-day professional training course from LTC Consultants, delivered...

What You Will Achieve

- Explain the core principles and current good practice in Cathodic Protection System in Oil & Gas Exploration Industry Survey, Analysis and Design
- Apply practical tools and techniques for Cathodic Protection System in Oil & Gas Exploration Industry Survey, Analysis and Design in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Cathodic Protection System in Oil & Gas Exploration Industry Survey, Analysis and Design in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Engineers, technical specialists, operations staff and managers working in energy, utilities and process industries.

Course Outline

1. Foundations of Cathodic Protection System in Oil & Gas Exploration Industry Survey, Analysis and Design: principles, terminology and context
2. The business case: why Cathodic Protection System in Oil & Gas Exploration Industry Survey, Analysis and Design matters to performance
3. Core tools, frameworks and methods
4. Applying the tools: guided case study and exercises
5. Common pitfalls and how experienced practitioners avoid them
6. Working with stakeholders: communication and influence
7. Measuring results and continuous improvement
