

Clean Fuel Technology Standards

Oil and Gas

Course Overview

Clean Fuel Technology Standards: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Clean Fuel Technology Standards
- Apply practical tools and techniques for Clean Fuel Technology Standards in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Clean Fuel Technology Standards in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

IT professionals, analysts, digital transformation leads and managers seeking to apply modern technology in their organisations.

Course Outline

1. Setting the scene: Clean Fuel Technology Standards in today's organisation
2. Key concepts and the language of Clean Fuel Technology Standards
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Clean Fuel Technology Standards with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
