

Drilling Fluids Technology

Oil and Gas

Course Overview

Drilling Fluids Technology: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Drilling Fluids Technology
- Apply practical tools and techniques for Drilling Fluids Technology in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Drilling Fluids Technology in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

IT professionals, analysts, digital transformation leads and managers seeking to apply modern technology in their organisations.

Course Outline

1. Setting the scene: Drilling Fluids Technology in today's organisation
2. Key concepts and the language of Drilling Fluids Technology
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Drilling Fluids Technology with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
