Electrical Safety and Safe Working Practices

Electrical Engineering Courses

Course Overview

Electrical Safety and Safe Working Practices: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Electrical Safety and Safe Working Practices
- Apply practical tools and techniques for Electrical Safety and Safe Working Practices in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Electrical Safety and Safe Working Practices in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

HSE managers and officers, operations and site managers, supervisors, safety representatives and anyone accountable for workplace safety.

Course Outline

1. Setting the scene: Electrical Safety and Safe Working Practices in today's organisation
2. Key concepts and the language of Electrical Safety and Safe Working Practices
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Electrical Safety and Safe Working Practices with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
