

Energy Value Creation

Energy

Course Overview

Energy Value Creation: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Energy Value Creation
- Apply practical tools and techniques for Energy Value Creation in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Energy Value Creation in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Engineers, technical specialists, operations staff and managers working in energy, utilities and process industries.

Course Outline

1. Setting the scene: Energy Value Creation in today's organisation
2. Key concepts and the language of Energy Value Creation
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Energy Value Creation with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
