Fundamentals of Battery Storage

Electrical Engineering Courses

Course Overview

Fundamentals of Battery Storage: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Battery Storage
- Apply practical tools and techniques for Battery Storage in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Battery Storage in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Engineers, technical specialists, operations staff and managers working in energy, utilities and process industries.

Course Outline

1. Setting the scene: Battery Storage in today's organisation
2. Key concepts and the language of Battery Storage
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Battery Storage with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
