Fundamentals of Decarbonisation

Energy

Course Overview

Fundamentals of Decarbonisation: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Decarbonisation
- Apply practical tools and techniques for Decarbonisation in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Decarbonisation in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Engineers, technical specialists, operations staff and managers working in energy, utilities and process industries.

Course Outline

1. Setting the scene: Decarbonisation in today's organisation
2. Key concepts and the language of Decarbonisation
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Decarbonisation with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
