

Fundamentals of Wind Energy

Energy

Course Overview

Fundamentals of Wind Energy: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Wind Energy
- Apply practical tools and techniques for Wind Energy in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Wind Energy in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Engineers, technical specialists, operations staff and managers working in energy, utilities and process industries.

Course Outline

1. Setting the scene: Wind Energy in today's organisation
2. Key concepts and the language of Wind Energy
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Wind Energy with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
