

Green Finance

Finance & Budgeting

Course Overview

Green Finance: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Distinguish green, social, sustainability and sustainability-linked instruments
- Understand the standards that govern them: ICMA principles, taxonomies and verification
- Assess climate risk and its disclosure requirements for financial statements
- Evaluate carbon markets and what credible offsetting requires
- Identify realistic green funding routes for African organisations

Who Should Attend

Finance managers, treasury professionals, bankers, investment analysts and sustainability officers who need to speak the language of green capital fluently.

Course Outline

1. Why capital is repricing: the sustainability shift in finance
2. Green bonds and loans: structures, standards and issuance
3. Sustainability-linked instruments: targets with teeth
4. Climate risk: physical, transition and disclosure frameworks
5. Carbon markets: compliance, voluntary and African opportunities
6. Avoiding greenwash: verification, reporting and credibility
7. Case studies: African green issuances that worked
8. Building your organisation's green finance roadmap
