

Hydraulic Systems

Mechanical Engineering

Course Overview

Hydraulic Systems: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Hydraulic Systems
- Apply practical tools and techniques for Hydraulic Systems in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Hydraulic Systems in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Engineers, technicians, maintenance professionals and technical managers responsible for assets, plant and infrastructure.

Course Outline

1. Setting the scene: Hydraulic Systems in today's organisation
2. Key concepts and the language of Hydraulic Systems
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Hydraulic Systems with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
