

# Hydrocarbon Production Operations

Oil and Gas

## Course Overview

Hydrocarbon Production Operations: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

## What You Will Achieve

- Explain the core principles and current good practice in Hydrocarbon Production Operations
- Apply practical tools and techniques for Hydrocarbon Production Operations in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Hydrocarbon Production Operations in practice
- Build a personal action plan to implement what you have learned

## Who Should Attend

Engineers, technical specialists, operations staff and managers working in energy, utilities and process industries.

## Course Outline

1. Setting the scene: Hydrocarbon Production Operations in today's organisation
2. Key concepts and the language of Hydrocarbon Production Operations
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Hydrocarbon Production Operations with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
