

Hydrocarbon Production Operations

Oil and Gas

Course Overview

Hydrocarbon Production Operations: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Hydrocarbon Production Operations
- Apply practical tools and techniques for Hydrocarbon Production Operations in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Hydrocarbon Production Operations in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Engineers, technical specialists, operations staff and managers working in energy, utilities and process industries.

Course Outline

1. Setting the scene: Hydrocarbon Production Operations in today's organisation
2. Key concepts and the language of Hydrocarbon Production Operations
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Hydrocarbon Production Operations with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
