Infrastructure Asset Management and the ISO 55000 Approach

Civil and Construction Management

Course Overview

Infrastructure Asset Management and the ISO 55000 Approach: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa...

What You Will Achieve

- Explain the core principles and current good practice in Infrastructure Asset Management and the ISO 55000 Approach
- Apply practical tools and techniques for Infrastructure Asset Management and the ISO 55000 Approach in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Infrastructure Asset Management and the ISO 55000 Approach in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Directors, senior managers, heads of department, team leaders and high-potential professionals preparing for greater leadership responsibility.

Course Outline

1. Setting the scene: Infrastructure Asset Management and the ISO 55000 Approach in today's organisation
2. Key concepts and the language of Infrastructure Asset Management and the ISO 55000 Approach
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Infrastructure Asset Management and the ISO 55000 Approach with day-to-day operations
7. Reporting, metrics and demonstrating value
