

Integrated Reservoir Modeling

Mechanical Engineering

Course Overview

Integrated Reservoir Modeling: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Integrated Reservoir Modeling
- Apply practical tools and techniques for Integrated Reservoir Modeling in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Integrated Reservoir Modeling in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Engineers, technicians, maintenance professionals and technical managers responsible for assets, plant and infrastructure.

Course Outline

1. Foundations of Integrated Reservoir Modeling: principles, terminology and context
2. The business case: why Integrated Reservoir Modeling matters to performance
3. Core tools, frameworks and methods
4. Applying the tools: guided case study and exercises
5. Common pitfalls and how experienced practitioners avoid them
6. Working with stakeholders: communication and influence
7. Measuring results and continuous improvement
8. Personal action planning and course review
