LNG Technologies Production

Oil and Gas

Course Overview

LNG Technologies Production: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in LNG Technologies Production
- Apply practical tools and techniques for LNG Technologies Production in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine LNG Technologies Production in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Engineers, technical specialists, operations staff and managers working in energy, utilities and process industries.

Course Outline

1. Setting the scene: LNG Technologies Production in today's organisation
2. Key concepts and the language of LNG Technologies Production
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating LNG Technologies Production with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
