Managing Artificial Intelligence Projects

AI (Artificial Intelligence)

Course Overview

Managing Artificial Intelligence Projects: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Managing Artificial Intelligence Projects
- Apply practical tools and techniques for Managing Artificial Intelligence Projects in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Managing Artificial Intelligence Projects in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Project managers, project engineers, planners, PMO staff and team members involved in delivering projects of any size.

Course Outline

1. Setting the scene: Managing Artificial Intelligence Projects in today's organisation
2. Key concepts and the language of Managing Artificial Intelligence Projects
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Managing Artificial Intelligence Projects with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
