Process Control and Safeguarding

Instrumentation and Process Control

Course Overview

Process Control and Safeguarding: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Process Control and Safeguarding
- Apply practical tools and techniques for Process Control and Safeguarding in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Process Control and Safeguarding in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Engineers, technicians, maintenance professionals and technical managers responsible for assets, plant and infrastructure.

Course Outline

1. Setting the scene: Process Control and Safeguarding in today's organisation
2. Key concepts and the language of Process Control and Safeguarding
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Process Control and Safeguarding with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
