

# Substation Safety Awareness

Electrical Engineering Courses

## Course Overview

Substation Safety Awareness: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

## What You Will Achieve

- Explain the core principles and current good practice in Substation Safety Awareness
- Apply practical tools and techniques for Substation Safety Awareness in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Substation Safety Awareness in practice
- Build a personal action plan to implement what you have learned

## Who Should Attend

HSE managers and officers, operations and site managers, supervisors, safety representatives and anyone accountable for workplace safety.

## Course Outline

1. Foundations of Substation Safety Awareness: principles, terminology and context
2. The business case: why Substation Safety Awareness matters to performance
3. Core tools, frameworks and methods
4. Applying the tools: guided case study and exercises
5. Common pitfalls and how experienced practitioners avoid them
6. Working with stakeholders: communication and influence
7. Measuring results and continuous improvement
8. Personal action planning and course review
