

Sustainable Urban Development

Health, Safety and Environment (HSE)

Course Overview

Sustainable Urban Development: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Sustainable Urban Development
- Apply practical tools and techniques for Sustainable Urban Development in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Sustainable Urban Development in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

HSE managers and officers, operations and site managers, supervisors, safety representatives and anyone accountable for workplace safety.

Course Outline

1. Setting the scene: Sustainable Urban Development in today's organisation
2. Key concepts and the language of Sustainable Urban Development
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Sustainable Urban Development with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
