

The Complete Net Zero Emission

Energy

Course Overview

Net Zero Emission: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Net Zero Emission
- Apply practical tools and techniques for Net Zero Emission in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Net Zero Emission in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Engineers, technical specialists, operations staff and managers working in energy, utilities and process industries.

Course Outline

1. Setting the scene: Net Zero Emission in today's organisation
2. Key concepts and the language of Net Zero Emission
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Net Zero Emission with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
