

The Next Generation of Infrastructure

Urban Planning and Development

Course Overview

The Next Generation of Infrastructure: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in Next Generation of Infrastructure
- Apply practical tools and techniques for Next Generation of Infrastructure in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Next Generation of Infrastructure in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Professionals, specialists and managers at every level who want to strengthen this capability and apply it with confidence at work.

Course Outline

1. Setting the scene: Next Generation of Infrastructure in today's organisation
2. Key concepts and the language of Next Generation of Infrastructure
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Next Generation of Infrastructure with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
