

The Next Generation of Infrastructure

Urban Planning and Development

Course Overview

The Next Generation of Infrastructure: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

What You Will Achieve

- Explain the core principles and current good practice in The Next Generation of Infrastructure
- Apply practical tools and techniques for The Next Generation of Infrastructure in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine The Next Generation of Infrastructure in practice
- Build a personal action plan to implement what you have learned

Who Should Attend

Project managers, project engineers, planners, PMO staff and team members involved in delivering projects of any size.

Course Outline

1. Setting the scene: The Next Generation of Infrastructure in today's organisation
2. Key concepts and the language of The Next Generation of Infrastructure
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating The Next Generation of Infrastructure with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
