

# Traction Power System

Electrical Engineering Courses

## Course Overview

Traction Power System: a 5-day professional training course from LTC Consultants, delivered in-classroom across Africa and live online.

## What You Will Achieve

- Explain the core principles and current good practice in Traction Power System
- Apply practical tools and techniques for Traction Power System in your own organisation
- Analyse real-world scenarios and select the right approach with confidence
- Avoid the common pitfalls that undermine Traction Power System in practice
- Build a personal action plan to implement what you have learned

## Who Should Attend

Engineers, technical specialists, operations staff and managers working in energy, utilities and process industries.

## Course Outline

1. Setting the scene: Traction Power System in today's organisation
2. Key concepts and the language of Traction Power System
3. Frameworks and good practice that deliver results
4. Hands-on application: workshop exercises and cases
5. Problem-solving clinic: participants' real challenges
6. Integrating Traction Power System with day-to-day operations
7. Reporting, metrics and demonstrating value
8. Action planning: your first 90 days after the course
